## CB Series Salt Chlorine Generator

CB series salt chlorine generator

The best disinfection choice for above ground pools with 10-45m<sup>3</sup> pool water

Chlorine Output of CB2: 2g/H

Chlorine Output of CB4: 4g/H

Chlorine Output of CB6: 6g/H

Chlorine Output of CB8: 8g/H

Chlorine Output of CB10: 10g/H

### CB series salt chlorine generator

The best disinfection choice for above ground pools with 10-45M<sup>3</sup> pool water

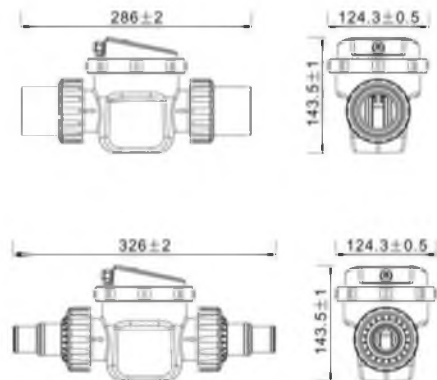

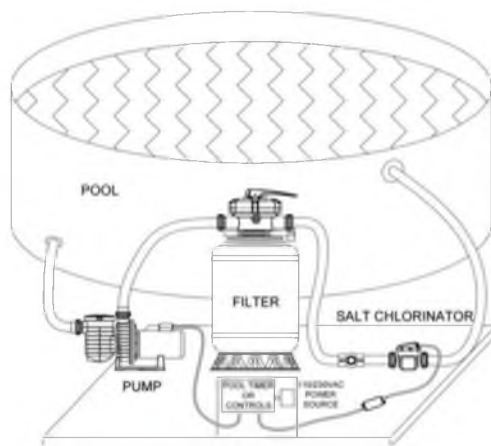

LASWIM CB series salt chlorine generator is very simple to use, just add salt to the pool to quickly and stably generate the chlorine required for pool water disinfection. It is not only makes pool water clearer, safer, and more comfortable, but avoid all the disadvantages of traditional chlorine disinfection (difficulty storage, odor, red eye, itchy skin, bleached clothing, etc.)

### Feature

1. Low salt alarm, when the salinity is too low, the chlorinator will alarm with error code to ensure the effective disinfection of the swimming pool.
2. Self clean function by reversing the polarity automatically, the self clean cycling time is 4 hours, which can prolong the lifetime of titanium plate.
3. Adjustable chlorine output: HALF and FULL.
4. Smart size, suitable for installation and use in small space, energy saving and environmental friendly.
5. Can be directly connected with flexible hose via 32/38mm reducer fittings or PVC pipe (1.5"/50MM), easy installation, simple operation and maintenance.
6. Water flow protection, the chlorinator will stop working when there is no water flow or inadequate flow, prolong the lifetime.
7. Intelligent design, once connected with power, the salt chlorinator will work automatically when the pump is operating.
8. Each time the chlorinator restarts, it can automatically initiate the last work status.
9. Audio and visual alarm, which is easy to find corresponding solutions.
10. Water temperature monitoring function, when the water temperature is below 10°C, there will be an alarm with error. When above 45°C, the chlorinator will be forced to stop working with an alarm, prolong the lifetime.
11. It will reverse the polarity after restart the power, prolong the lifetime.

## Feature:

- Low salt alarm, when the salinity is too low, the chlorinator will alarm to ensure the effective disinfection of the swimming pool.
- Self clean function by reversing the polarity automatically, the self clean cycling time is 4 hours, which can prolong the lifetime of titanium plate.
- Adjustable chlorine output: HALF and FULL.
- Compact designed special for residential pools up to 45m<sup>3</sup>/45,000 liters.
- Transparent cell is much easier to check water flow, with connection 50mm/1.5", 32/38mm.
- Water flow protection, the chlorinator will stop working when there is no water flow or inadequate flow, prolong the lifetime.
- Intelligent design, once connected with power, the salt chlorinator will work automatically when the pump is operating.
- Each time the chlorinator restarts, it can automatically initiate the last work status.
- Audio and visual alarm, which is easy to find corresponding solutions.
- Water temperature monitoring function, when the water temperature is below 10°C, there will be an alarm. When above 45°C, the chlorinator will be forced to stop working with an alarm, prolong the lifetime.
- It will reverse the polarity after restart the power, prolong the lifetime.

Model	Max Chlorine Output	Adaptor Specification		Advised Pool Volume(m <sup>3</sup> )	Cell size (mm)
CB2	2g/h	Input:AC100-240V,50/60Hz,1.0A	Output:DC12V,1.5A	≤10 m <sup>3</sup>	160*124.3*143.5
CB4	4g/h	Input:AC100-240V,50/60Hz,2.0A	Output:DC24V,2.75A	10~18m <sup>3</sup>	
CB6	6g/h	Input:AC100-240V,50/60Hz,2.0A	Output:DC24V,2.75A	13~27m <sup>3</sup>	
CB8	8g/h	Input:AC100-240V,50/60Hz,2.0A	Output:DC24V,2.75A	18~35m <sup>3</sup>	
CB10	10g/h	Input:AC100-240V,50/60Hz,2.0A	Output:DC24V,2.75A	23~45m <sup>3</sup>
